

# **DR. KENDRA POPE**

*Integrative Oncology and Veterinary Wellness*

# *Welcome!*

Thank you for your interest in our services!

Whether you are here for a chronic illness, cancer diagnosis, or preventative care, we know how difficult navigating your pet's wellness journey can be.

Integrative medicine takes more time to build lasting effects in your pet when compared to conventional medicine. It is not a "quick fix" and is often not the best course of action for pets who are feeling extremely ill. It will be an involved process and will require time, energy, and resources on your part, depending on your pet's unique situation.

We are here to take the journey with you!

## We Offer

- ✓ Acupuncture
- ✓ Herbal and Natural Supplements
- ✓ Laser Therapy
- ✓ Vitamin C Infusions
- ✓ Integrative Nutrition
- ✓ Chiropractic/Massage
- ✓ Recommendations on conventional therapies
- ✓ Bloodwork

## We Do Not Offer

- ✗ Radiation Therapy
- ✗ Injectable Chemotherapy
- ✗ Emergency Services
- ✗ X-Rays
- ✗ Ultrasounds
- ✗ Surgical Procedures
- ✗ Conventional medications

Dr. Kendra Pope is a board certified oncologist but specializes **only** in integrative and holistic care. She can guide you with conventional therapies but **does not offer them in office.**

## Next Steps

Once your consultation request is submitted, please allow 2-3 business days for a staff member to reach out via email with next steps. Be sure to check your spam inbox! Please note that Dr. Pope is currently accepting new patients on a limited basis, and consultations cannot be guaranteed at this time.

### **Consultations book at least 4 weeks out**

You can help to expedite this process by:

- **Ask your treating veterinarian to fill out the online referral, which is required to schedule**  
<https://drkendrapope.com/vet-referral-form/>
- **Obtain and send medical records from up to 3 pertinent veterinary offices to:**  
**medicalrecords@drkendrapope.com**
- **Visit our website and social media handles to learn more and ensure we are a good fit for you**  
Browse our New Client section to learn more
- **Establish your pet's healthcare team, including;**
  1. Primary Veterinarian
  2. Specialists (Oncologists, Internists, Surgeons, etc.)
  3. Dr. Pope

## Why we recommend a team approach

Following your pet's diagnosis, seeking the opinion of a conventional specialist (Oncologist, Surgeon, etc.) ensures you are fully aware of all treatment options available. In our experience, when clients have sought Dr. Pope's opinion **after** gathering all conventional treatment options, **owners are more informed, less overwhelmed, have had time to digest all options and are prepared to make an integrative treatment plan at the time of consult.**

When dealing with serious disease and illness, or even creating a long term wellness plan, collaboration and teamwork are always necessary for success! Many clients who are convinced they will not seek conventional care, change their minds once learning all of the suggested options.

Dr. Pope will lay out all the tools in the toolbox available for your pet, but the recommended treatment plan will always be left to the one who knows their pet best:

**You!**
